About Myself

From a young age, I've been involved with ICT, mainly focusing on writing and designing programs and websites.

I enjoy working independently and in a calm and thoughtful manner to quickly achieve the desired results. When I'm programming, I can fully immerse myself and work with great focus.

I'm also curious about how programs work, and if I can't find one that meets all my needs—or simply to automate tasks—I write my own applications. I enjoy experimenting with this, finding new solutions, and designing user-friendly interfaces.

In my free time, I enjoy reading science fiction and fantasy books, or watching movies in the same genre.

Competencies & Skills

Curious	I am eager to learn and enjoy diving into new subjects and projects.
Thoughtful Communication	In social situations I may be reserved, but I communicate carefully and thoughtfully when needed.
Calm Personality	I feel most comfortable in a quiet environment where I can work independently and with focus on my tasks.

Experience

Aug 2024 – Doorgaand

Compendium Editor

Software Developer

A companion app for Dungeons & Dragons apps Fight Club 5e and Game Master 5th Edition to more easily create and edit XML files and compile them into complete compendiums ready for import.

References:

“ I've had the pleasure of working with Vidal for six months. In that time he has shown to be an eager learner, fast worker, and reliable colleague. Vidal pays attention to detail and he is always focussed on the job at hand. With his knowledge of the accessibility guidelines, he tested and improved the accessibility of our website.

~ **Helen Boots @ Gemeente Medemblik**

“ Vidal is an honest worker with a lot of skills. He is eager to learn, works quickly and with his quiet and humorous personality is a pleasant addition to the team. Vidal is the silent force that every business should have. He constantly surprises you with his versatility and the work he provides. He really is a value to every workplace where he will arrive in the future.

~ **Tessa Stassen @ Gemeente Medemblik**

“ Vidal is a fine colleague, that quickly delivers the requested results (or even better)!

~ **Arjan Dekker @ Gemeente Medemblik**

“ Vidal has never let me down in any request I made to him. He has a keen eye for visual stuff and a sharp view on the methods behind webdesign. He is very proficient in using the right software for a task, he is fast when possible and patient when necessary.

~ **Daan Aaij @ ICM+**
